Loss of Life, Heavy Property Damage Caused by Earth Tremors in Japan

Seismic Activity Believed to
Have Centered About
Volcano Tanzena.

MANY HOMES COLLAPSE

Forefight of Aviation Patrol Prevents
Serious Loss by Fire in Tokyo; Rail-
way Tracks Thrown Out of Align-
ment and Trains are Derailed.

TOKIO, Jan. 15.—A report by tele-
phone from the home office at Tokyo
tonight said:

"The damage in Tuesday's earth-
quake was very slight. None is dead
here. Three or four were killed in
Yokohama. Neighboring prefectures
reported slight damage. All the diplo-
matic corps are safe. There were
no casualties among the foreign resi-
dents."

The seismograph at Tokyo Univer-
sity showed that the duration and
amplitude of the shock to be about
one-third as severe as the September
quakes."

An official announcement said there
were "few deaths" in Tokyo and Yo-
kohama and that over 200 persons
had been injured. About 600 houses
were demolished in Yokohama and
Kamakura. The mansion of Prince
Kuni was partly destroyed.

Tremors of less intensity continued
throughout the morning. Records in-
dicated the morning's quake was
about one-third as strong as the
previous disaster.

An extraordinary session of the
cabinet was called to consider the
situation.

PEKING, Jan. 15.—Six persons were
killed, 200 injured and 500 houses de-
stroyed by an earthquake in Yo-
kohama today, according to a wireless
dispatch from O-saka. Four were killed
and 20 injured in Tokyo in shocks
which ravaged the district devastated
in September, the same source re-
ported.

TOKIO, Jan. 15. (AP. A. M.)—Re-
ports reaching Tokyo on the extent of
damage by this morning's earth-
quake today gave rise to belief that
heavy losses had been sustained in
the vicinity of Odawara. The quake
which hit Tokyo at 6 A. M. today
lasted for three minutes and was the
heaviest since the disaster of Septem-
ber 1. Cable, telephone and telegraph
communication has been interrupted
and all train service stopped east of
Kofu. A few small fires broke out
in Tokyo immediately following the
quake but they were quickly extin-
guished owing to firework of the
aviation bureau which had arranged
patrols to guard and report fire in
the outlying districts in the event of
an earthquake.

The power station at Kiyosaki was
damaged. The Tokyo railway ap-
parently suffered heavily. Several
trains were derailed. Heavy dam-
age to the railroads in the Chikuzaki
and Hirayuki regions was reported.
Prof. Tatsuhiro Nakamura, noted
student of seismic activity and recog-
nized as one of the world's leading
earthquake experts, believed the
quake originated from volcanic ac-
tivity at Mount Tanzena in the province
of Sagami. He expressed belief that
probably enormous damage had been
done in the vicinity of Odawara, the
bay through which access is had to
Tokyo from the sea.

WASHINGTON, Jan. 15.—Fifty
persons are estimated to have been
killed in the earthquake which struck
Tokyo and Yokohama, Jefferson Cui-
tary of the American embassy at
Tokyo, Japan, cabled the State De-
partment at 5 P. M., Japanese time.
The damage caused temporary sus-
pension of the railroad service, water
supply, electric lighting systems,
telegraphic and telephone communi-
cations.

No Americans are reported killed,
"affair stated."
The estimate of 50 dead was made
by the Japanese newspapers.

Frederick D. R. Lechner, second
secretary of the American embassy at
Tokyo, suffered a fractured wrist and
otherwise Americans were unhurt.
The State Department today received
a dispatch from Karlundel C.
Stewart, American consul general at
Yokohama (via a "severe earthquake")
Scattered in Japan this morning.

This dispatch from Stewart was
dated at noon today Japanese time.
"The consulate was not damaged
and there were no casualties to the
consulate or embassy staff," the State
Department's announcement said.
"The consul's general further report
that the water and light supply had
been cut off and that railway traffic
has been interrupted."

ELECTROCUTION DOES NOT PRODUCE DEATH, VIENNA SCIENTIST DECLARES; EXECUTED WILL AWAKE IN GRAVES

By United Press.
VIENNA, Jan. 15.—Prof. Mellink,
director of the Electrophysics Insti-

The professor states he has re-
ceived many persons who had been elec-

Many persons executed in the
United States by electrocution for
murder were actually buried alive,
he says, insisting that such persons
should be buried in live or cremated

told Council the complainants would
be seeking redress elsewhere for the

FINEST ARRANGED, IS VERDICT AS TO NEXT INSTITUTE

Educational Treat Promised
for Teachers and Public
by Smiths.

COLUMBIA MAN COMING

Dr. Thomas B. Briggs Will Be Here
Three Days, Beginning January 24:
First Time Man of His Rating Has
Ever Appeared For Three Seasons.

"The finest program that has ever
been arranged for a teachers' in-
stitute here."

That is the joint statement of B.
D. Smith and R. K. Smith, superin-
tendents of the Connellsville city and
Dunbar Township school districts re-
spectively, as they announced the
speakers procured for the second
half of the fifth annual combined in-
stitute of the two districts, to be held
here on Thursday, Friday and Sat-
urday, January 24, 25 and 26.

The program is one that will be of
greatest interest to the public as well
as teachers. The heads of the two
school districts have secured some of
the finest educational and lecturing
talent in the nation for the three-day
sessions and cordially invite everyone
who desires to do so to attend all
meetings.

The leading figure in the program
will be Dr. Thomas B. Briggs, profes-
sor of secondary education, of the
Columbia University. He will be here
during all three days. It is the first
time a man of his rating has ever
been placed on the program of any
institute held in Fayette county. He
is the author of several textbooks and
has written the introduction of sev-
eral high school textbooks.

Another man on the program,
whose coming is sure to be popular
with the teachers and all others who
have heard him before is Dr. Jesse
Hays White, head of the Department
of Psychology, University of Pitts-
burg. No one pleases better in Con-
nellsville than Dr. White and he has
been here on numerous occasions.

A novelty in teachers' institutes will
be presented in Emerson Collins, a
former deputy attorney of Penn-
sylvania and one of the state's fore-
most lawyers and scholars, who will
make four addresses. He has made a
life-long study of the Constitution of
the United States and all his talk-
ing will be on it. His appearance here
is considered timely. His talks are
expected to be of the greatest interest
to everyone.

The fourth figure will be Mr.
Stella B. Pines of the Indiana State
Normal School, one of the leading
authorities on English work in the
intermediate grades.

This time instead of having one in-
structor meet teachers of one grade
one day and another the next, the
same instructor will meet the same
teachers in all three conferences.

Dr. White will meet the primary
teachers of the first three grades.
Miss Pines will meet the teachers
of Grades four to six and Dr. Briggs
will hold conferences with those of
Grades seven to 12.

Robert McNeill of Pittsburg, the
singing director, will be here for all
three days of the institute. He was
mistaken at the session of the first
half. Will A. Rhodes, soloist, also of
Pittsburg, who is becoming a "regu-
lar" at such institutes, will be here
for one day. That will be Saturday.
Carl T. Arntine, supervisor of music
in the High School, will entertain at
the piano and other musical numbers
will be by groups of students from

PHYSICIANS' ADVICE

A Real First-Aid Method to Relieve
and Break Up Colds.

It is a recognized fact that not medical herb tea is one of the very best home remedies to use to assist in breaking up colds, which, when neglected often develop into influenza pneumonia or other serious sickness. It is old-fashioned, of course, but nevertheless, its effectiveness is widely admitted everywhere today.

Many physicians now advise their patients to always have on hand a supply of Bulgarian Herb Tea for emergency purposes.

Harsh, drastic, habit-forming drugs should be avoided. Certain drugs have a tendency to depress the heart and disturb the nervous system. Druggists everywhere honestly recommend Bulgarian Herb Tea to their customers. Its gentle laxative and tonic qualities are wonderfully healthful. Why not see your druggist at once and get a small package for emergency purposes? You or some other member of your family may need it to fight a cold this winter.—Advertisement.

TIPS FOR TAXPAYERS.

No. 12.
Deductions for business expenses for the largest claim in the returns of many taxpayers. All the ordinary and necessary expenses incurred in carrying on any business, trade, profession, or vocation are allowable deductions.

Typical expenses of a mercantile establishment are amounts paid for hire of employees, rent, light, heat, and water, telephone, advertising, insurance, delivery expenses, the cost of operating delivery wagons and motor trucks, and incidental repairs to such vehicles. The expenses of a manufacturing business include labor, raw material, light, heat, and power, selling cost, administration, and similar charges.

A professional man may claim as deductions the cost of supplies used by him in his practice, expenses paid in the operation and repair of an automobile used in making professional calls, dues to a professional society, subscriptions to professional journals, office rent, the expenses of fuel, light, water, and telephone used in his office, and the hire of assistants.

The farmer may deduct all amounts paid in the production and harvesting of his crops, including labor, cost of seed, and fertilizer used, cost of minor repairs to farm buildings (but not the dwelling), fences, machinery, and small tools used up in the course of a year or two.

Traveling expenses, when the trip is solely on business, including the entire cost of meals and lodgings while away from home, are deductible.

Deductions for business expenses must have certain qualities to be allowed. They must relate to a business, trade, profession, or vocation in which the taxpayer has invested time or money for the purpose of a livelihood or profit. A business may be carried on by a taxpayer, even if all its activities are conducted by employees. A taxpayer may conduct more than one trade or business and claim a deduction for the business expenses of each, provided he devotes sufficient time and attention to each.

ROTARY CLUB ORGANIZED AT MEYERSDALE

MEYERSDALE, Jan. 15.—Meyersdale has the first Rotary Club in Somerset county. It was organized recently by W. D. McCants of Connelldale. The club started off with 20 members and the following officers:

President, Clarence Moore; vice-president, H. E. Shipley; secretary, J. M. Gangey; treasurer, L. R. Collins. These officers and R. F. Mason, P. D. Clutton and H. M. Cook, will constitute the board of trustees.

It is expected that at least one hundred Rotarians from Frostburg, Cumberland, Johnstown, Greensburg, Connelldale and other places will come here to help initiate the club as soon as the charter is received.

WOMEN GIVE OUT

Housework is hard enough when healthy. Every Connelldale woman who is having backache, blue and nervous spells, dizziness and kidney or bladder troubles, should be glad to heed this Connelldale woman's experience:

Mrs. Lucella Anderson, 601 York avenue, says: "I was bothered with terrible backaches which caused misery for hours at a time. When I washed all day or stood before the ironing board, a burning pain existed in the small of my back that felt as though a red hot iron had been plunged in my spine. I had dizzy spells especially in the morning and specks appeared before my eyes. I was nearly blind from the effect of these attacks. My kidneys were sluggish, too. I purchased Doan's Pills from Moore's Drug Store and after using them I was cured."

Priced 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Miss Anderson had. Foster-McBarn Co., Mrs., Buffalo, N. Y.—Advertisement.

Lady Mary Thynne, In South Africa To Welcome Prince Of Wales; Gossip Revives

LADY MARY THYNNE

LONDON—The rebellious Prince of Wales, determined not to wed, so report declares, will find when he reaches South Africa on the official mission which is taking him there that gossip, and one of the fairest of the young women whom England considers a possible bride for him have preceded him.

Lady Mary Thynne, prettiest of Princess Mary's bridesmaids, also a bridesmaid for the Duchess of York, will go to South Africa immediately to become lady-in-waiting to Princess Alice, whose husband, the Earl of Athlone, is governor-general. The Prince of Wales will arrive several weeks later.

Retail Merchants Will Gather in Pittsburg Jan. 21 for Big Convention

Experts in Several Lines of Retailing Will Be on Speaking Program.

BANQUET IN EVENING

In order to make the first convention of its Mercantile Bureau a big success, the Pennsylvania State Chamber of Commerce has prepared an elaborate program for the business sessions which will be held in Pittsburg at the William Penn Hotel, January 21 and 22. Invitations were issued to retail dealers in all parts of Pennsylvania and the responses received indicate a tremendous interest in the affair throughout the State, and a large attendance.

Connellsville merchants have been invited and it is understood there will be a number in attendance.

While out of town visitors will arrive in Pittsburg on Monday morning, January 21, the convention proper will not open until 12:30 o'clock, when a luncheon will be held at the William Penn Hotel. Walter Rosenbaum, of the Rosenbaum Company of Pittsburg, who is chairman of the general committee in charge of the convention, will open it with an address in which he will set forth its purpose. On behalf of the Chamber of Commerce of Pittsburg, Vice-President George R. Wallace will make an address of welcome to the visitors.

The first business session will start at 2:30 o'clock in the afternoon. The first address will be entitled "Retail Trade Outlook" and will be made by Ernest C. Hastings of Washington, Pa. Mr. Hastings has had many years of experience as sales manager of dry goods stores in Washington, D. C. and Brooklyn, N. Y., and for four years was editor of the "Dry Goods Economist." Following Mr. Hastings here will be an address by Herbert T. Tilly of Philadelphia on "National Affairs Affecting Pennsylvania Merchants." Mr. Tilly has had a great many years experience as a department store executive and is a director of the National Dry Goods Association.

The closing address will be made by Dr. Leonard P. Fox of Harrisburg whose topic will be "State and Local Laws Affecting Retailers." Dr. Fox is manager of the research bureau of the Pennsylvania State Chamber of Commerce, taught politics at Princeton University and at Carnegie Insti-

tute of Technology, Pittsburg, and was a member of Governor Pinchot's citizens committee on state finances. Following Dr. Fox's talk there will be an hour devoted to the asking and answering of questions pertinent to the retail trade. During the luncheon and the afternoon session music will be furnished by the Harrisburg Quartet which will come to Pittsburg especially for this occasion.

J. B. Shen of Pittsburg will preside at the business session on Tuesday morning. This will be opened by a discussion entitled "Credit Information Exchange, Both From Wholesale and Retail Standpoints" by Thomas K. Green, director of the Pittsburg Association of Credit Men and of the National Association of Credit Men, and Colonel Franklin P. Blackstone, credit manager at the Joseph Horne Company. This will be followed by a talk on "Community Trade Extension Possibilities" by S. H. Ditchett of New York, editor of the "Dry Goods Economist." H. M. Pfister, manager of the Joseph Horne Company, will deliver an address on "What Are the Best Methods to Bureau in Training Employees and Keeping Up Their Interest in the Success of the Store?"

At the same session George E. Fox of Harrisburg, secretary of the State Chamber of Commerce, will speak on "What the State Chamber of Commerce is Doing for Pennsylvania Merchants." The closing talk at the morning session will be made by Prof. W. R. Young, dean of the department of engineering extension at State College, on "State College Educational Courses."

The principal social feature of the convention will be the banquet which will be held in the ballroom of the William Penn Hotel on Monday evening, January 21. F. R. Babcock of Pittsburg, director of the Pennsylvania State Chamber of Commerce,

My Experience is that
DR. CALDWELL'S
SYRUP PEPSIN
Is just what you need

This Will Make Digestion Easy

WHAT the dyspeptic needs is not soda and charcoal and brassy perfumes but a medicine that will help his bowels to move regularly, for dyspepsia and constipation are allied. If you will take Dr. Caldwell's Syrup Pepsin systematically as the directions on the package call for you will soon digest your food properly and pass it out normally, and heartburn, belching, dizziness, nervousness and bloating will vanish. In time you can dispense with all medicines as Syrup Pepsin will have exercised the intestinal and stomach muscles so they act for themselves. Mr. Louis F. Schullz of Rossmore, Pa., Mrs. Victor Knicker of 3625 Bank St., Louisville, Ky., and hosts of others will verify this.

World Acclaims Success

Dr. Caldwell's Syrup Pepsin is the prescription of a well-known physician of that name who practiced successfully for 47 years. It has been on the market thirty years and is today the largest selling liquid laxative in the world. Thousands of families have it in their medicine chest ready when any member shows signs of dyspepsia, constipation, torpid liver, sour stomach, biliousness,

coated tongue, offensive breath, headache and such ailments that indicate deranged stomach and bowels. Many serious diseases are prevented by this timely aid.

Formula Plainly Stated

Have no hesitancy giving Dr. Caldwell's Syrup Pepsin to anyone young or old. It is a mild, gentle laxative free from narcotics. It will not cramp or grip. The formula is on the package, a compound of Egyptian penna with pepsin and simple aromatics. A bottle can be had at any drug store and averages less than a cent a dose. Economical for families and fully guaranteed. You will find it a great improvement in taste and action over castor oil, or "sandy cathartics" made from con-lar that cause skin diseases, anemia that loosens the teeth, sals in water or powder that constrict the blood and dry the skin.

Want You to Try It Free Before Buying

SOMERSET COUNTY EXPENDITURES FOR HIGHWAYS IN 1923

SOMERSET, Jan. 15.—Somerset county expended less for the construction of new highways during 1923 than has been the rule for some years past because it was the cleanup year for the retiring board of county commissioners.

Only five miles of bituminous-surfaced highway were constructed by the county, one mile on the old Somerset-Berlin plank road and four miles on the Camp Harmony boulevard between Statestown and Holmport. The one-mile section cost \$5,666, while the four-mile stretch cost \$42,000.

The county contributed \$16,000 to the Edgewood avenue extension in Somerset township; \$2,600 to extension of highway between Howell and the Lincoln Highway; \$14,278 to Confluence concrete street extension; \$16,000 road-reward highways in Broctonville township, total, \$96,544.

New bridges cost Somerset county \$24,502.61. Repairs to bridges cost \$9,406.79. Four bridges of reinforced concrete construction were built in 1923—bridge over Pott Creek in the borough of Windber; bridge over Pott Creek in borough of Garrett; Kornis bridge over Quemanahoning creek in Jenner township, where Somerset-Johnstown new highway crosses stream east of Gray; Little bridge over Brush creek in Northampton township.

The clash will be especially important as it is one of those in the W. P. I. A. League. The Cokers have already won both league games played. On Friday night, at Norwin High, another league contest will be fought out. If the locals manage to clean up their two contests this week they will have secured an excellent start towards high honors.

TENNESSEE HOME OF FINE THOROUGHBREDS

Breeding Industry Has Lost Ground in Late Years.

Tennessee possesses advantages unsurpassed anywhere for the breeding of horses of all types, the trotter as well as the thoroughbred, and that old and distinct animal called the saddle horse.

This fact was exemplified 30 years ago when that state was breeding for the open market horses of superior quality both for the running and the trotting track and for use under the saddle and for show purposes.

There is something, it is what you will, in the climate, the grass and the water of Tennessee that imparts to the blood of native bred horses the highly desirable potency that leads to the fullest development of their powers of speed and endurance.

Exceptional opportunities for revivification are offered in the breeding of saddle stock, horses of that type being especially in good demand just now and likely to continue for many years to come.

Riding clubs are popular in many of the larger cities of the country, and evidence is not lacking to show that they are multiplying at a rate that soon will result in their establishment in every populous center of the United States and Canada.

Time was when Tennessee thoroughbreds were sought in every market on this side of the Atlantic. But the breeding industry in late years has lost much ground.

Seven Champions Credited by International Union

The International Boxing union in Paris has credited seven world championships to the United States. The following boxers were recognized as world champions by the union: Flyweight, Pancho Villa; bantamweight, Joe Lynch; featherweight, Johnny Dundee; lightweight, Benny Leonard; welterweight, Mickey Walker; middleweight, Harry Greb; heavyweight, Jack Dempsey. Gene Tunney of New York is the recognized American lightweight champion.

Dodgers Sign J. Jones

Johnny Jones, shortstop, who, with another player, has been purchased by the Brooklyn, N. Y., baseball club for \$50,000 or thereabouts. Jones has a batting average of .300 for 150 games and is a fast man on the field as well as on the paths. He is from the Portland club of the Pacific Coast league.

Considerable Criticism on Steel Shaft Markings

It appears as if the United States Golf association has left itself open to considerable criticism for the stand it has taken with regard to the steel shaft.

According to official word, markings on the face of iron heads must not exceed one-sixteenth of an inch in width nor shall they be less than three thirty-seconds of an inch apart. Also all rough or raised edges must be eliminated.

In the opinion of most golfers, the whole situation could have been simplified if the officials had come out for smooth-faced clubs, devoid of all lines and punches.

Notre Dame's Ball Team to Take Southern Trip

Notre Dame's baseball team will make another long southern trip in the spring.

Games with Vanderbilt, Georgia Tech and Alabama are contemplated. Besides the contests with southern teams, the Irish are booked with Iowa, Michigan, Illinois, Wisconsin, North western, Purdue and Indiana. Thirty games in all are in sight.

The Paramount

"COUNTERFEIT LOVE"—A story of plantation life featuring a thrilling horse race, is the feature picture today at this theatre.

"Counterfeit Love" is a melodramatic romance of the highest order, in which the elements of love, pathos, humor and mystery are so utilized as to make an engrossing photoplay that never lags in interest from the main title of the final fudout.

The locale is the Sunny South. The heroine, a belle of Dixie. The villain, a mysterious stranger who poses as a man of wealth but who is in reality a counterfeiter, who makes love to the girl under the mask of a benefactor. The hero, a chivalrous son of the South, exposes the counterfeiter and wins his reward.

Through the fabric of the story is woven the golden thread of romance which reaches a thrilling climax at a typical county fair where an exciting horse race is a spectacular feature.

An excellent cast, headed by Marion Swayne as the heroine enlists such names as Joe King, Norma Lee, Jack Richardson, Irene Boyer, Alexander Gillette and others equally well known.

Wednesday and Thursday, Florence Vidor will be seen in "Allen Adams," a screen version of Booth Tarkington's prize novel.

The Soisson

"WHY WORRY"—Harold Lloyd's latest comedy, attracted record breaking crowds at the performances yesterday afternoon and last evening. The picture, which is also the feature attraction today, Wednesday and Thursday, is one of the best in which the famous comedian has ever appeared and the thrills of "Safety Last" have been replaced by laughs in "Why Worry." As a millionaire hypochondriac, Mr. Lloyd goes to Central America for a rest and finds a revolution. He saves a giant of toothache, thereby making the color.

The Orpheum

"ASHES OF VENGEANCE"—A First National picture, which opened at this theatre yesterday for a three-day attraction, is a masterpiece. Norma Talmadge, the famous screen star, is magnificent throughout her role. Her diadema for her humbled enemy, her bitter hate and rising tide of gratitude, which slowly turns to love are indicated with grace and skill which are compelling in themselves. The acting of Conway Tearle, who plays opposite Miss Talmadge, as well as the entire cast is flawless. The picture is attracting large crowds. It will also be shown tomorrow.

"Ashes of Vengeance" is a romance of France in the days of Charles IX, released by First National. It was directed by Frank Lloyd. The production taken rank with the masterpieces of the screen. Not less than twenty distinguished players, in addition to those mentioned, have principal roles—Wallace Beery, Courtney Ford, Josephine Crowell, Betty Francisco, Claire McDowell, Andre de Beranger, Murdoch MacQuarrie, Boyd Irwin, Carmen Phillips, Winter Hall, William Gilford, Hector V. Sarno, Earl Schenck, James Cooley, Lucy Beaumont, Forrest Robinson, Mary McAllister, Kenneth Gibson, Howard Truesdell, Frank Leigh and Hula Jeanne Carpenter.

Forty-eight massive sets, including one 330 feet long, reproducing the Louvre Palace ballroom, and another showing a whole quarter of the Paris of 1572, were built for the production. Thousands of actors on horseback and afoot, dressed in the rich-colored costumes of the period, take part in the ensemble scenes.

Friday and Saturday, Charles Jones will be seen in "Hell's Hole."

"Miss America" Declares Tanlac Wonderful Health Giving Tonic

Miss Campbell in "Miss America" crown which she has won on two occasions.
Photograph by Atlantic Photo Service

Miss Mary Katherine Campbell, twice proclaimed "Miss America," has taken TANLAC and endorses it in a statement recently given to the women of America through International Proprietaries, Inc., distributors of this great tonic. In this statement, Miss America declares that Good Health is the basis of all beauty, and advises women who would be beautiful to "first find good health."

Her complete statement is given as follows: "I consider it a great privilege to be able to tell the thousands of women everywhere what a great tonic TANLAC is. Health is the basis of all beauty. Without good health, one is apt to be run down, nervous, underweight, high-strung, anemic. Indigestion drives the roses from a woman's cheeks and robs her of that radiant quality of womanhood that is real beauty."

"I have taken TANLAC and I do not hesitate to say that it is a wonderful health-giving tonic. It has brought relief and good health to many women, and with good health one may have a measure of beauty that will overcome shortcomings in face and figure."

"Rosy cheeks, sparkling eyes, a well-rounded figure, a lovable disposition, go hand in hand with good health. To those searching for beauty, I would say—'First of all, find Good Health.' The TANLAC treatment has proven itself a boon to womanhood, and I recommend it."

Miss Campbell has written a booklet on Health and Beauty which may be secured by filling out the coupon from a woman's checks and robs her of that radiant quality of womanhood that is real beauty."

\$500,000,000 LOSS BY FIRE IN U. S. IN 1922

Secretary Wallace Tells How to Minimize Damage.

Among the most serious dangers to our national resources is the appalling and rapidly mounting fire waste according to Secretary of Agriculture Wallace who in a recent statement issued at Washington said that last year it was in excess of \$500,000,000. The big individual losses in this sum arise from large fires and conflagrations in cities and towns. No complete figures are available for a single year of farm property fire according to the secretary, but rough information is said to be on hand to show that it also is on the increase and that the sum now materially exceeds \$50,000,000—the actual damage may be nearer \$100,000,000.

In reducing the fire hazard to his property, as in many other matters, the farmer must rely to a large extent upon his own personal effort. With negligible exceptions, it has no other department to respond to his call when the disaster occurs but in the other hand it is rarely threatened by the farmer's carelessness. The farmer's carelessness is a frequent cause of needless destruction of farm property.

The effort and cost required to bring this about would be a small part of the cost and labor required to replace the property now burned each year. Furthermore, thousands of lives would be saved and many thousands would be spared needless sorrow and privation.

The most serious causes of farm fires are a chimney which has become cracked and weakened or below which it passes through the roof badly placed stoves and woodstoves, sparks on the roof, carelessness in the use of kerosene, gasoline and matches, spontaneous combustion in hay stored before property cured, and lack of proper protection against lightning on buildings as well as on wire fences. The remedy involves a prompt and careful examination and an equally prompt removal of all dangers where this can be done without undue expense. The most important improvements are in general cheap compared to a fire.

After all necessary and reasonable measures have been taken to prevent accidental fire, some thought should be given to available means of fire extinction. This is important even after precautionary measures have been taken since the possibility of fire while it can and should be greatly lessened cannot be entirely removed. Many a fire starting from the chimney of a farm dwelling has been put out before severe damage occurred by the use of a ladder and can be quenched by simple means if prompt action is possible. Some equipment for combating a fire should be readily at hand in every farm house. The farmer's own ingenuity will readily suggest the most necessary equipment within his means if he only gives the subject due consideration.

Looking Ahead

LAST Spring a total of 350,000 people were disappointed in not being able to obtain deliveries of Ford Cars and Trucks, as orders were placed faster than cars could be produced. The demand for Ford Cars and Trucks this Spring will, according to all indications, be far greater than last Spring. Winter buying has been increasing at a greater rate than ever before.

Actual retail deliveries the past 60 days totaled 308,170 Ford Cars and Trucks, an increase of 1,961 a day over a year ago.

Over 200,000 people have already ordered Ford products on our purchase plan, the majority of whom will take delivery in the Spring.

The above facts are given with the suggestion that you list your order promptly with a Ford dealer if you contemplate the purchase of a Ford Car or Truck for use this Spring or Summer and wish to avoid delay in delivery.

You need not pay cash for your car. You can arrange to make a small deposit down, making one of the following easy payments. Or, you can buy on the Ford Weekly Payment Plan. This plan puts the cost of the car and truck in 48 weekly payments of \$10.00 each. The balance of the cost is paid in 48 weekly payments of \$10.00 each. The balance of the cost is paid in 48 weekly payments of \$10.00 each.

—The Thrill of Long Distance Radio

Every night throughout the year new thrills await you—thrills that will free your mind of the dull cares of the day's routine—the same thrills you would experience if you were seated in the "coveted circle" of the big city theatre in the stands at the classic gladiatorial battle of the season—a ring-side seat at the championship bout or a grandstand ticket to the World's Series games.

And there's a thrill for every member of the family. Good music to entertain, sport events to amuse, lectures and sermons to educate and uplift; world news to satisfy the curiosity that is in all of us. RADIO knows no favorites. It is as much at home in poor man's cottage as in rich man's palace for it entertains in a way that either can understand and enjoy. It talks, sings, laughs and plays in your own language.

THOUSANDS HAVE KIDNEY TROUBLE AND NEVER SUSPECT IT

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kline's Swamp-Root is well known. It is the standard for the treatment of kidney trouble.

An examining physician for one of the prominent life insurance companies, in an interview of the subject, made the following statement: "One reason why many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. Dr. Kline's Swamp-Root is on sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents in Dr. Kline & Co., Stoughton, Mass., for a sample bottle. When writing be sure to mention this paper—Advertisement."

Many Baseball Players Have Fixed as Pilots

Many great baseball players have taken to aviation, even players who are regarded as novices for many years. Roger Bresnahan was one of the greatest baseball players on the New York Giants. But Roger has now taken to a team leader. Johnny Brown was great as a player and coach, but as a manager he was a flop.

The famous Schuylkill river stretch of water at Philadelphia will be the scene of the annual Childs cup race May 31 next in which Columbia, present holder, will oppose Princeton and Pennsylvania eight-oared shell crews.

Seven-year-old Alice May Howard of San Diego, Y. W. C. A. recently established a clever feat in covering 220 yards breast stroke in 5:35 5-5. She began swimming a year ago and has won also out of her group since then.

"Safety First"

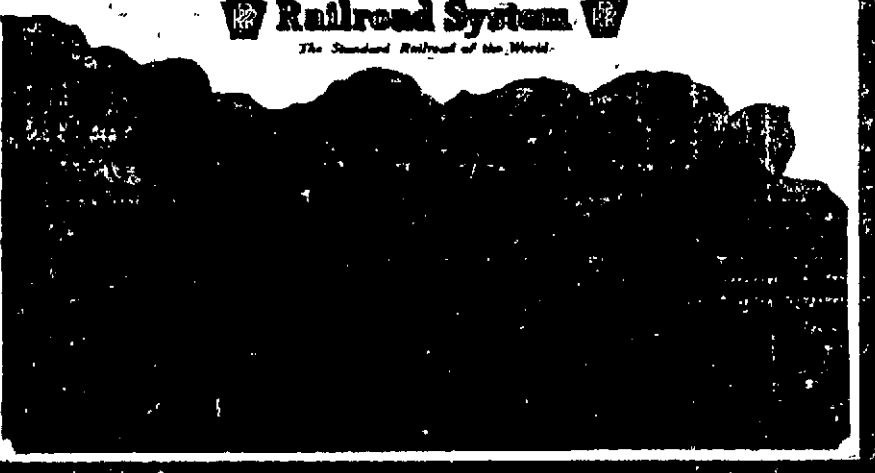

NO ONE factor in railroad operation has been accorded more painstaking care and thoughtful study than the development of signals and interlocking switches to the highest degree of perfection. In this respect the Pennsylvania Railroad has always maintained a recognized leadership.

More than half a century ago it installed on its lines the first mechanical interlocking signals and switches in America. Thirty-six years later the application of electrical power made possible the introduction of electro-pneumatic signals and switches. In the use of these devices also the Pennsylvania Railroad was the American pioneer.

Upper-qualifier semaphores—a further important step in the elimination of mechanical failures—and the position-light signal—which is the latest development in signaling and is now being substituted for the semaphores—are both products of Pennsylvania Railroad engineering genius.

Another Reason Why—
